

Computer Knowledge

1. Which of the following is a modifier Key?
1) Shift key 2) Arrow key 3) Caps lock 4) Insert key 5) None of these
2. LED stands for
1) Liquid Emitting Diode 2) Light Emitting Diode 3) Level Emitting Diode 4) Lift Emitting Diode 5) None of these
3. Which is the example of Non-Impact printer?
1) Dot matrix printer 2) Inkjet Printer 3) Laser printer 4) Both 3) & 2) 5) None of these
4. CPU is known as
1) Microprocessor 2) Brain of computer 3) Central processing Unit 4) All 1), 2) and 3) are correct 5) None of these
5. POST stands for-
1) Power-on-self test 2) Power-off-self test 3) Portable of self test 4) Partition of self test 5) None of these
6. When you start the computer after shutting down it is called _____.
1) Warm Boot 2) Booting 3) Buffering 4) Cold Boot 5) None of these
7. RAM, ROM, Cache all are present in _____.
1) Software form 2) Virtual form 3) hardware form 4) Both 1) and 2) 5) None of these
8. The two major categories of software include
1) operating system and utility 2) Personal productivity and system 3) system and application
4) system and utility 5) None of these
9. Spindle is the _____ of the CD.
1) circular area 2) middle whole on the surface 3) circular path 4) smoothness on the surface 5) None of these
10. Which of the following is the example of rectifiers?
1) Mobile charger 2) CD 3) DVD 4) Pen Drive 5) None of these
11. BUS are _____.
1) semi conductors 2) thin wires 3) resistance 4) heat absorber 5) None of these
12. System Software works as
1) Interface between user & computer 2) Interface between user & consumer
3) Integrated between user & hardwares 4) Integrated between user & network
5) Interface between user & hardwares
13. Speedometer is the example of -
1) Digital computer 2) Hybrid computer 3) Analog computer 4) Mini computer 5) None of these
14. (ASCII) American Standard code for Information Interchange is always in _____.
1) 10 Bit 2) 8 Bit 3) 7 Bit 4) 6 Bit 5) None of these
15. A web page is _____.
1) collection of information, hyperlinks, images, audio files, video files & flash application.
2) collection of Softwares 3) collection of rules & instructions 4) both 2) & 3) 5) None of these
16. To move from one webpage to another webpage is called _____.
1) Navigation 2) Hyper linking 3) Web browser 4) website 5) None of these
17. Separator between Primary name and Secondary name is called _____.
1) Symbol 2) refine 3) period 4) joint 5) None of these
18. https is used for _____.
1) reference name 2) request 3) hyper linking 4) secure username & password 5) None of these
19. .png means _____.
1) Portable network graphics 2) Picture network graphics 3) Portable necessary graphics
4) Power network graphics 5) None of these

20. Adobe flash player is a ____.
- 1) utility software 2) application software 3) security software 4) system software 5) None of these
21. Who is the father of Internet?
- 1) Vinton Gray-Vint Cerf 2) Tim Berner lee 3) Mask Andressenn 4) Mozilla foundation 5) None of these
22. Which shows a country domain?
- 1) .gov 2) .ca 3) .in 4) .pk 5) Only 2), 3) & 4)
23. Which is not a component of e-mail?
- 1) Message envelope 2) Message header 3) Message body 4) Email address 5) None of the above
24. CC is used in e-mail ____.
- 1) for hiding email address from each other.
2) to make witness to somebody (whom you are sending mail besides main sender)
3) no important use 4) when space is less to enter in the address box of e-mail 5) None of these
25. (IMAP) Internet Message Access Protocol is used for ____.
- 1) containing those e-mails which are ready to send 2) accessing any e-mail
3) where e-mails come 4) junk mail 5) None of these
26. What's the full form of VIRUS?
- 1) vital information resource under siege 2) vital internet resource under siege
3) vital internet renew under siege 4) vital information resource unique source 5) None of the above
27. Self Replication is the feature of which Virus?
- 1) MALWARE 2) WORM 3) SPYWARE 4) ADWARE 5) None of the above
28. MODEM stands for -
- 1) modulation & demodulation 2) modified & de modified
3) moderate & de moderate 4) encrypt & decrypt 5) None of these
29. Which of the followings is not a high level language?
- 1) Java 2) COBOL 3) C++ 4) Machine language 5) None of these
30. Which of the following statements are correct about compiler?
- 1) It converts source code HLL to machine language line by line
2) It converts Mnemonic code to machine language / code
3) Converts source code to machine code at a time 4) both 1) & 2) 5) None of these
31. Collection of row and columns is called
- 1) cell 2) field 3) table 4) backend work 5) None of these
32. Data base is used to send record from client end to ____.
- 1) Receiver 2) Server 3) another 4) Source locator 5) None of these
33. To perform any operation in Database we use ____.
- 1) Syntax 2) Text 3) Queries 4) Record 5) None of these
34. In any table how many Primary Keys are possible?
- 1) One 2) Two 3) Three 4) Four 5) Five
35. Spyware is used for
- 1) affecting only application 2) to create problem in the system
3) to break the network security 4) to damage the information 5) None of these
36. Networking is used for
- 1) sharing resources 2) to connect two or more than two terminals / nodes
3) both 1 & 2 4) security purpose 5) None of these
37. How many types of Duplex is formed?
- 1) 2 types 2) 3 types 3) 4 types 4) 5 types 5) None of these
38. Which of the following is not the Wireless Medium?
- 1) Bluetooth 2) Satellites 3) Mobile 4) Walkie-Talkie 5) None of these

39. Which of the following topology have maximum network failure?
 1) Mesh Topology 2) Star Topology 3) Ring Topology 4) Tree Topology 5) BUS Topology
40. In OSI model which layer contains all electrical and mechanical equipment.
 1) Transport 2) Application 3) Session 4) Physical 5) Presentation
41. Which is a subject studied for security system?
 1) Graphology 2) Cryptography 3) M. SC-Electronics 4) M- Tec 5) None of these
42. Fullform of CAN is _
 1) Computer area network 2) Core area network 3) Campus area network
 4) Cafe area network 5) None of these
43. Which is not a feature of an OS ?
 1) Memory management 2) File management 3) Job management 4) Security management 5) None of these
44. How many types of wild cards are used with Linux commands?
 1) One 2) Two 3) Three 4) Four 5) Five
45. $C = A + B$ is used in which gate of electronic circuits?
 1) AND gate 2) OR gate 3) NOR gate 4) NOT gate 5) NAND gate
46. 1 Peta byte is equal to ____.
 1) 1024 T. B 2) 1024 Byte 3) 1024 bit 4) 1024 E. B 5) 1024 YB
47. Status Bar is situated
 1) below the task bar 2) above the title bar 3) above the task bar
 4) All 1), 2) & 3) are correct 5) None of these
48. What should be used to give space in text?
 1) Back space 2) Space bar 3) Scroll bar 4) Task bar 5) None of these
49. To Italicise the text in Word Document which short key is used ____.
 1) CTRL + I 2) CTRL + T 3) CTRL + A 4) CTRL + L 5) CTRL + C
50. Cut or Copy data is found after using these command in ____?
 1) Clip art 2) Clip board 3) Tripane 4) Hard Disk 5) None of these
