

# Computer Knowledge

- Which of the following is not a type of keys?  
1) Alphabetic keys      2) Numeric keys      3) Function keys      4) Toggle keys      5) All the above
- BIOS stands for  
1) Basic Input /Output System      2) Basic Integrated Operating System  
3) Bold/Italic Option System      4) Binary Input /Output System      5) None of these
- Which of the following input device is used in playing game?  
1) DVD      2) Joystick      3) Light pen      4) Scanner      5) None of these
- LCD stands for  
1) Liquid Carbon Diode      2) Liquid Crystal Diode      3) Liquid Crystal Display  
4) Light Crystal Display      5) None of these
- What's the storage capacity of Compact Disk?  
1) 700 MB      2) 500 MB      3) 700KB      4) 500 KB      5) None of these
- Servers are computers that provide resources to other computers connected to a \_\_\_\_\_  
1) network      2) mainframe      3) supercomputer      4) client      5) None of these
- DDR (Double Data Rate) is used for-  
1) ROM      2) EPROM      3) RAM      4) CMOS      5) None of these
- On the basis of technology, computers are classified into \_\_\_ types.  
1) 6      2) 5      3) 4      4) 3      5) None of these
- First processor was introduced in which of the following generations?  
4th      2) 3rd      3) 1st      4) 2nd      5) None of these
- By which of the following values a computer understands capital letter?  
1) A to Z 50 to 100      2) A to Z 65 to 98      3) A to K 65 to 90      4) A to Z 97 to 122      5) A to Z 65 to 90
- In world wide web the world is \_\_\_\_.  
1) a set of protocols      2) net      3) hyperlinks      4) auto files      5) None of these
- What shape does the mouse take when it comes to hyperlink.  
1) Arrow shape      2) Hand shape      3) Square shape      4) Circle shape      5) Does not change
- .tiff extension is used for  
1) tagged image format      2) transferred image file      3) tagged edit format      4) transferred immediate file  
5) None of these
- Software refers to support any external application in our system are called-  
1) Plug-off      2) Plug-ins      3) Adobe flash      4) Add-ons      5) None of these
- < > symbol are used to write text inside it is called-  
1) Angular symbol      2) less / greater than      3) Tag      4) Styler      5) None of these
- ARPANET is a kind of \_\_\_\_.  
1) web browser      2) networking      3) language      4) syntax      5) None of these
- Which is the first Indian web browser?  
1) Apple Safari      2) Epic web browser (2009)      3) Google Chrome      4) Netscape      5) None of these
- Which of the following protocol are used in application layer of internet protocol?  
1) DHCP, DNS, FTP, ARP      2) TCP, UDP, DCCP      3) ICMP, ICMPV, IGMP  
4) ARP, PPP, DSL, ISDN      5) None of these
- Which of the following domain is used for National Informatic Centre?  
1) .co.in      2) .in      3) .mil      4) .gov      5) .nic

20. While sending an email to the main person, address of email is put where \_\_\_ is given in the box of compose mail?  
 1) CC : \_\_\_\_\_ 2) BCC : \_\_\_\_\_ 3) Copy to 4) TO : \_\_\_\_\_ 5) None of these
21. POP (Post Office Protocol) is used  
 for accepting e-mail 2) for accessing any e-mail 3) for creating e-mail 4) for transferring e-mail 5) None of these
22. COBOL stands for  
 1) Common Business Oriented Language 2) Common Bright Oriented Language  
 3) Co-axis Business Oriented Language 4) Common British Oriented Language 5) None of these
23. \_\_\_ is the smallest unit of data storage.  
 1) Byte 2) MB 3) GB 4) TB 5) Bit
24. To change schema of any table in DBMS is called \_\_\_\_.  
 1) Insertion 2) Updation 3) Modification 4) Deletion 5) None of these
25. Which type of memory is there in a Pendrive?  
 1) Cache memory 2) flash memory 3) EEPROM 4) RAM 5) None of these
26. Subset of total number of fields are not responsible for \_\_\_ any record.  
 1) verification of 2) data manipulation of 3) referential constraint of 4) fetching  
 5) None of these
27. In case of Use enquiry last step of transaction is called \_\_\_\_.  
 1) save point 2) commit 3) restart point 4) roll back 5) None of these
28. In Data Flow Diagram which of the following symbols shows flow of data?  
 1) → 2) = 3) O 4)  5) None of these
29. Radio is an example of \_\_\_\_.  
 1) Simple X 2) Half Duplex 3) Full Duplex 4) Either 2) or 3) 5) None of these
30. UTP & STP are which type of cables?  
 1) Fiber-optic cable 2) Co-axial cable 3) Twisted pair cable 4) Wired medium 5) None of these
31. Wi-Max stands for \_\_\_\_.  
 1) Wired interoperability for Microwave Access 2) Wireless interoperability for Microwave Access  
 3) Wired connection between terminals 4) Wired simultaneous communication medium  
 5) None of these
32. In which of the following topology information flow is very fast?  
 1) BUS topology 2) Ring topology 3) Star topology 4) both 2) & 3) 5) None of these
33. What's should be the range for an IP address?  
 1) 10 - 255 2) 1 - 255 3) 1 - 300 4) 0 - 255 5) 0 - 500
34. Which layer in OSI model chooses most appropriate path.  
 Data link 2) Presentation 3) Transport 4) Network 5) Session
35. To see all the folders in DOS, which of the following commands is given?  
 1) C:\> DIR 2) C:\> DIR /P 3) C:\> DIR /W 4) C:\> DIR /AH 5) None of these
36. In NAND Gate Electronic circuit NOT is shown by  
 1)  2)  3) D 4) O 5) 
37. □ YB = ?  
 1) 1024 EB 2) 1024 PB 3) 1024 TB 4) 1000 ZB 5) 1024 ZB
38. VPN stands for -  
 1) Variable Private Network 2) Virtual Private Network 3) Virtual Perfect Network  
 4) Virtual Pact Network
39. Which shortcut key is used in PowerPoint to justified Paragraph?  
 1) CTRL + Z 2) CTRL + X 3) CTRL + J 4) CTRL + E 5) None of these

40. Which of the following statements is/are correct regarding Powerpoint?  
 1) Back space key is used to delete character left    2) Back space key is use to delete character Right  
 3) CTRL + Drag creates a copy of the text            4) Home key is used for Beginning of line  
 5) Only 1, 3 & 4 are correct
41. One can move between two or more open Excel files by using-  
 1) ctrl + tab                    2) ctrl + page up            3) ctrl + page down    4) ctrl + F9                    5) Alt + =
42. To open find window.  
 1) F1                            2) F2                            3) F3                            4) F4                            5) F5
43. \_\_\_ is the execution of two or more different programmes at the same time.  
 1) Multi programming    2) Multiprocessing    3) Integrity                    4) Recovery                    5) None of these
44. \_\_\_ is a facility whereby all the contents in a specified storage areas are written as Output.  
 1) Dumping                    2) Chumping                    3) Logging                    4) Scheduling                    5) None of these
45. \_\_\_ is electric / electromegnetic encoding of data and signalling is propagation of signal along suitable communication medium?  
 1) Transmission            2) Synchronous            3) Signals                    4) routing                    5) None of these
46. Which of the following can display a set of resources on the internet in the form of menus or lists of items?  
 1) Telnet                    2) Gopher                    3) SGML                    4) Usenet                    5) None of these
47. \_\_\_ is a search service built into the Gopher Internet application.  
 1) Veronica                    2) Mosaic                    3) Browser                    4) Flame war                    5) None of these
48. Usenet is a(n) \_\_\_\_.  
 1) contraction of user Network                    2) International non commercial network  
 3) It links many thousands of Unix sites    4) All 1, 2 & 3 are correct                    5) None of these
49. Which is not an example of social networking site?  
 1) twitter                    2) shadi.com                    3) facebook                    4) orkut                    5) None of these
50. A test that attempts to quantify hardware or software performance usually in terms of speed, reliability, or accuracy is called \_\_\_\_.  
 1) band width                    2) benchmark                    3) batch file                    4) boot record                    5) brouter
