

Computer Knowledge

1. Which is not a peripheral devices of a computer
1) Input device 2) Visual display units 3) Hard disk 4) Tapes 5) ALU (Arithmetic Logic Unit)
2. Joysticks are designed in the shape of handles that swivel in
1) 90 degree arcs 2) 180 degree arcs 3) 270 degree arcs 4) 360 degree arcs 5) None of these
3. Which is not a navigation key
1) Page up 2) Page down 3) Home 4) End 5) None of these
4. The tail of mouse is always
1) Near to body 2) Away from body 3) Touch to our body 4) No tail is present 5) None of these
5. Which device is used for digital signature?
1) UPC 2) Joystick 3) Light pen 4) MICR 5) None of these
6. For the purpose of hording's and Big maps printing which of the following is used
1) Laser printer 2) Impact printer 3) Non impact printer 4) Plotter 5) None of these
7. Addition, multiplication or calculation is done in
1) MU 2) CU 3) CPU 4) ALU 5) None of these
8. When someone click on restart button then the computer automatically shutdown and start. It is called
1) Warm boot 2) Processing 3) Multi tasking 4) Stand by 5) None of these
9. Memory borrowed from hard disk to extend primary memory is called
1) Cache memory 2) Virtual memory 3) Flash memory 4) RAM 5) Rom
10. Surface and shine area of a CD is known
1) Plotter 2) Platter 3) Spindle 4) Track 5) Cluster
11. EPROM stands for
1) Erasable programmable ROM 2) Electronically programmable ROM
3) Electric programmable ROM 4) Edit programmable ROM 5) None of these
12. Which of the following is the application software
1) OS 2) Compiler 3) BIOS 4) Media players 5) None of these
13. What is the storage capacity of MS 2010 office?
1) 70 MB 2) 578MB 3) 2.8 GB 4) 10 GB 5) None of these
14. First commercial computer was
1) ENIAC 2) UNIAC 3) DVAC 4) EDSAC 5) None of these
15. Internet means:
1) International network 2) Globalization 3) World wide web
4) All 1),2) and 3) are correct 5) None of these
16. < a > Anchor Tag is used for
1) Hyper linking 2) Hyper reference 3) Making program 4) Hyper 5) None of these
17. tif extension shows
1) graph inter format 2) graphic interchange format 3) transferred image file
4) transparent image file 5) transferred edit file
18. Full form of BCC in the context of e-mail is
1) Back carbon copy 2) Blind carbon copy 3) Black carbon copy 4) Blind carbon copy 5) None
19. Which is not the name of a virus:
1) MALWARE 2) SPYWARE 3) ADWARE 4) WORM 5) None of these
20. Debug is used
1) to find error in any software 2) to find error in any software code
3) To remove any error 4) All 1), 2) and 3) are correct 5) None of these
21. Intersection of row and column is known as
1) Table 2) Cell 3) Paragraph 4) Work sheet 5) None of these
22. In data base table record of one row is called
1) Tuple 2) Field 3) Entity 4) Label 5) None of these
23. What do you understand by E-R diagram?

- 1) Electronic – relationship diagram 2) Effective – relationship diagram
 3) Entity – relationship diagram 4) Electrical – relationship diagram 5) None of these
24. Key board to CPU connectivity is the example of
 1) Simplex 2) Network 3) Half duplex 4) Full duplex 5) None of these
25. Which is considered best technology of topology
 1) BUS topology 2) Ring topology 3) Star topology 4) Mesh topology 5) None of these
26. Which ID is variable in nature to connect with Wi-Fi ?
 1) Host ID 2) Net ID 3) Personal ID 4) Computer ID 5) None of these
27. OSI model consists of _____ layers
 1) 3 2) 4 3) 5 4) 6 5) 7
28. Which was the first operating system
 1) UNIX 2) LINUX 3) MAC-OS 4) IBM-DOS 5) MULTICS
29. Who is the father of (GUI) Graphic User Interface
 1) Steve Jobs 2) Nor Gate 3) Both 1) & 2) 4) AND gate 5) Only 1) & 4)
30. Which is Universal gate
 1) NAND Gate 2) NOR Gate 3) Both 1) & 2) 4) AND Gate 5) Only 1) & 4)
31. Gate way is _____
 1) transfer of files 2) device on one network can communicate 3) able to communicate like e-mail
 4) video conferencing 5) None of these
32. 1 kilo byte is equal to
 1) One thousand bites 2) One thousand bytes 3) Hundred bytes 4) Hundred bites 5) None of these
33. Telephone line is used to send document through
 1) Modem 2) TV 3) Printer 4) Fax machine 5) None of these
34. _____ is a method of overlapping input, output and processing of at takes single job.
 1) Spooling 2) Phishing 3) Buffering 4) Debugging 5) None of these
35. Which is the short cut key to create hyperlink in MS power point
 1) CTRL + K 2) CTRL + Shift + Z 3) CTRL + I 4) CTRL + shift + > 5) Left arrow
36. F11 is used in MS EXCEL
 1) to create a formula to sum all of the above cells 2) to create chart
 3) to insert ink 4) to edit the selected cell 5) None of these
37. In window _____ is commonly used to rename a highlighted icon or file.
 1) F3 2) F4 3) F2 4) F1 5) None of these
38. Integrated circuit is also known as a(n)
 1) IC 2) Intelligent 3) Integrated software 4) Chip 5) None of these
39. Lap top computers often have a(n) _____ display screen.
 1) CRT 2) LCD 3) MBD 4) BCR 5) None of these
40. _____ is a method of preventing unauthorized access to a computer system, often found on the network computers.
 1) File recovery 2) Folding 3) Fire well 4) Encryption 5) None of these
